アメリカから健(Ken)の家にホームステイで来ているビル(Bill)が、月曜日に初めて健の学校を訪れました。授業の前に、健とビルがその日の予定(schedule)について話しています。時間割表を参考にして、次の問いに答えなさい。

Ken : This is our classroom, Bill. I'll tell you first about today's schedule. We have six classes today. The first class starts at eight forty. The first class is Japanese. The other classes are music, English, math, social studies, and the last one is homeroom. The last class finishes at three twenty.

Bill : How long is each class?

Ken : Fifty minutes long. And we have a ten-minute break between classes.

Bill : We have seven classes each day, and each class is forty minutes long. We have a six-minute break between classes.

Ken : Oh, your break is a little shorter than ours.

Bill : Yes. We are sometimes busy because we have to move from class to class.

Ken : Move? We usually stay in our classroom. Today we study five subjects here. We only have to move to the music room.

Bill : That's interesting. Well, when and where do you have lunch?

Ken : There is a one-hour lunch break after math class. We have lunch here with our friends.

Bill : Really? We have lunch in the cafeteria in our school. Today I found some differences between your school and ours.
